Mr. Power,

What I understand from your message below is that Councilor Madore is refusing to provide the requested records.

Thank you for your response. I will advise the requester.

Linnea,

I am not at all sure that the list of those blocked or denied by Councilor Madore on Facebook is indeed a public record. I agree with your general assessment that it is not the location of the record but its content or purpose. The list described does not relate to the conduct of government nor the performance of any governmental or proprietary function. If you or the requester could articulate how this list does affect governmental process, I am willing to hear this argument but I think the case law is pretty well settled that if the record is not used in the functioning of government such does not have to be disclosed or identified under the PRA. If you have citations to the contrary I am willing to review them.

Mr. Power,

Yes, A "public record" is defined in RCW 42.56 and can be found in various places, to include a personal mobile phone and social media websites.

A public records is not identified by its location but rather its content.

I have provided an affidavit that we use for records on personal devices. Please have him complete and return to me to be notarized, or to another notary if he prefers.

Since his Facebook page is live, it is my understanding that the one record that is not available to the public would be a screen shot or other mechanism you prefer, to show the suspended/banned persons from his page.

It is my understanding that when a comment has been deleted from Facebook, it is then not available for recovery. Please acknowledge and provide me your opinion on this matter.

Please advise when you or he will provide a response and/or records.

Linnea,

Is it the county's position that these are indeed public records?
